

Double Viridescent Venerer: Sucrose and Anemo MC

LTeq#1978

Findings:

Below are a few rotations that allow you to proc VV on Hydro and the sub dps' element for Anemo MC and Sucrose inside Childe's signature teams:

Evidence

Anemo MC: Hydro - Fischl

Hydro => Fischl AA > E => Anemo MC Hold E 3 Ticks:

<https://streamable.com/81i403>

Hydro Swirl Damage = 1116

Electro Swirl Damage = 1116

Anemo MC: XL

Hydro => XL AA > E => Anemo MC AA > Hold E 2 (Weak, 5 sec cd) / 3 Ticks (Strong, 8 sec cd):

<https://streamable.com/uqo15f>

Hydro Swirl Damage = 1116

Pyro Swirl Damage = 1188

Anemo MC: Flex - Bennett

(Within Bennett Q) => Hydro => Anemo MC E 2 (Weak, 5 sec cd) / 3 Ticks (Strong, 8 sec cd) >

Q: <https://streamable.com/91twi1>

Hydro Swirl Damage = 1116

Pyro Swirl Damage = 1116

Sucrose: XL

Hydro => XL AA > E => Sucrose E / AA > Q > CA

<https://streamable.com/9hyka4>

Hydro Swirl Damage = 43

Pyro Swirl Damage = 49

Note: All AA's frames are important to incorporate because they properly space your abilities to improve consistency of swirl. Sucrose's AA can be used in place of E for a faster animation to swirl hydro gauges that have existed on the enemy for a long period of time.

Significance:

Childe's teams generally are multi-elemental. This makes it crucial to trigger Viridescent Venerer (VV) on both Hydro and a sub-dps element during rotation to maximize damage. However, it is often not worth using two swap cooldowns to do so, therefore we can rely on the spacing between turret abilities elemental applications instead.
